EXPERIENCE

General Assembly   Developer in Residence

Full-time teaching assistant for General Assembly's Web Development Immersive program. Member of a 4 person instructional team, teaching MEAN stack and Rails development to a group of 20 students. Code reviews and lesson planning.

General Assembly   Student Developer

During this three month immersive program, I developed multiple projects in both the JavaScript/Node and Ruby/Rails ecosystems. The course demanded the rapid adoption and deployment of newly presented technologies. Completed projects can be viewed at www.nickbrennandev.com

Freelance Translator   Italian Translator

Translation of documents from Italian into English.

Clarks   Store Manager

Managing sales staff and store operations for three separate locations in the San Francisco Bay Area.
